# City of Swartz Creek CITY MANAGER'S REPORT Regular Council Meeting of Monday, September 11, 2023 - 7:00 P.M.

TO: Honorable Mayor, Mayor, Pro-Tem & Council Members

FROM: Adam Zettel, City Manager

**DATE:** September 7, 2023

 $\checkmark$ 

# **ROUTINE BUSINESS – REVISITED ISSUES / PROJECTS**

✓ **MICHIGAN TAX TRIBUNAL APPEALS** (*No Change of Status*) As of now, the city has not received any new tax tribunal appeals.

# ✓ **STREETS** (See Individual Category)

**2020-2023 TRAFFIC IMPROVEMENT PROGRAM (TIP)** (*No Change of Status*) The Miller Road rehabilitation award has been made to Ace Paving of Saginaw. Work is now underway. Some folks are upset due to the inconvenience. This is a very common complaint with the public these days. People want nice roads, which is understandable, however, there is an expectation that roads can be rehabilitated without an interruption in traffic.

The project is estimated to cost \$1,368,913.42 with current quantities. Concrete will commence early on and take about six weeks. Paving should only take a couple days. There will not be any changes to the lane markings or parking for this project.

Note that we do expect some increases to the project scope due to the apparent need to remove and replace more curb on Miller, specifically in the core downtown area.

# ✓ **STREET PROJECT UPDATES** (No Change of Status)

This is a standing section of the report on the status of streets as it relates to our dedicated levy, 20 year plan, ongoing projects, state funding, and committee work. Information from previous reports can be found in prior city council packets.

Crack filling is likely to occur towards the end of summer.

OHM is finalizing bids for Winchester Village and Woods. This is a very large scope of work. As observed with the recent streets in the Village, the water main that is in place is 70-year-old cast iron, with failing joints. As such, it is imperative to replace water main for those streets that have original pipe (note that this excludes Don Shenk, which has ~20 year old water main, with a corresponding top coat of asphalt).

In order to tackle such a large scope of water main, we intend to bond with the USDA for another phase. This means that the water main work must be completed in two construction seasons. The removal of the street and existing main further necessitates that the streets be completed in the same timeline. As such, a street bond is prudent.

The USDA and street bond processes will be conducted concurrently, but they are separate and distinct. Because of the importance and complexity, I added a section to the packet to cover the borrowing process specifically.

# ✓ RECONNECTING COMMUNITIES AND NEIGHBORHOODS (Update)

There is new federal money available to provide traffic and pedestrian connections to overcome divisions in communities that have resulted from previous changes to the traffic network. In essence, the program seeks to resolve some issues caused by the construction of major highways, roads, rail, etc. This could be something that helps us create a much-needed pedestrian link over I-69 at Morrish Road. With new retail coming, and the school's Cage Fieldhouse there, it makes sense to connect this to Applecreek and the rest of downtown to the south.

OHM will be writing a grant for this, but in typical federal fashion, it is only a planning grant at this point. This means that we are going to spend a couple thousand to apply for a grant that that will cover the federal planning requirements for the improvement itself. This plan is estimated to cost \$80,000 and is what the planning grant will cover. Once complete, we can make application for the improvement grant itself. If this seems like a long and tedious process, it is. However, it may be the best way to address this need.

# ✓ WATER – SEWER ISSUES PENDING (See Individual Category)

#### ✓ **SEWER REHABILITATION PROGRAM** (No Change of Status)

Inliner is continuing work on Miller Road and Morrish Road. They have been attempting to complete this area prior to the Miller Road surface rehabilitation. However, they have hit a snag. A break in the main transmission line has been found under the road near Fairchild. With this asset being critical and work starting on the 10<sup>th</sup>, we have declared this an emergency repair and retained Glaeser Dawes to conduct the repair. This work was completed the week of August 21<sup>st</sup>.

Moving forward, all unfinished lining on Miller will be conducted at night. This will allow work to avoid the road construction crews, and it will also greatly reduce the disruption to local businesses who would otherwise be advised to refrain from water/sewer use during the process.

This year's project will tackle Morrish, from I-69 to Miller Road (I-69 north was constructed in about 2006 when the county interceptor was installed in Clayton Township, and Morrish Road, from the south city limits to the creek is now an intercommunity collector). They will also be doing Miller from Paul Fortino to the west city limit of the line.

We will also be putting together a more formal five-year city-wide cleaning program, based upon this information. This is being put on the back burner so that we can put more resources into lining instead of cleaning. Again, the benefit is that lining is relatively cheap, so the more we do now the better. In addition, the lining program is so aggressive that the result is still about 2 miles (10%) of the system being cleaned in the process. This is short of the 20% we seek to attain, but it is reasonable.

The total cost for 2023 work is \$646,078. The big 'take away' is that we are still aggressively lining the system, which is extraordinary. The next implication is that our 20 year plan has been modified enough to lose some of its validity. This is common when plans mature. Knowing this, we plan to update our maintenance and lining records into our GIS mapping system as soon as possible so we can put forth a modified 5 and 20 year sewer maintenance plan. I do not have a timeline on this.

#### ✓ WATER MAIN REPLACEMENT - USDA (No Change of Status)

See the borrowing section below for information on the continuation of the bonding process.

OHM has approvals from GCDC-WWS and USDA for water main. EGLE is the last plan reviewer, and we expect this to go more smoothly. We should be able to bid this with the streets this month. Under the current timeline, we are much less likely to see the total completion of all Village water main and streets by the end of 2024. I expect we will see work in 2025.

Concerning the loan, we are looking at about \$270,000 in annual loan installments to pay for phase II. No grant funds were included this round. With that said, the USDA is going to require a rate increase prior to closing on the loans. They are using our fiscal year 2022 revenues of \$2,268,328 against our fiscal year 2025 expected expenses of \$2,562,849 (including the new debt service) as the basis for new rates. This means that we need to cover a gap of about \$294,521, an increase of 12.9%. This is obviously extremely high and undesirable. Note that this could be made substantially worse if the State amends the Social Welfare Act (see below).

However, keep in mind that our last payment on the GO Tax Bonds borrowing in 2016 will be in May of 2027, relieving expenses by about 2%. In addition, our projects for FY2025 are not reflected in the FY2022 actual. As such, I think we will experience lighter increases than what the USDA gap indicates. Furthermore, we have the ability to adjust rates in FY23, FY24 and FY25 to get there. This might be 4% a year instead of a large bump up front. Given recent and current inflation, this is not out of line. Lastly, this investment will cover the vast majority of capital maintenance projects for the next 30-40 years.

See the borrowing section below. In addition to the USDA lending, we considered an application to the Michigan Drinking Water State Revolving Fund. As revealed in late 2022, this program is not competitive for our needs.

This water project, regardless of the funding source, will help us afford the remainder of the Winchester Village Streets:

Greenleaf Winshall Durwood Norbury Whitney Seymour (partial section only)

# ✓ WATER SYSTEM MISCELLANEOUS (No Change of Status)

We have paid an invoice to have the county begin work to abandon the 8" Dye Road water main in the vicinity of the rail line (west side of Dye). They will be using their prequalified contractor to perform the work, and I expect them to start at any time. The cost to perform the work is estimated to be \$17,740. We have budgeted for this, and based upon our operating agreements with the county, we should not require any other formalities or resolutions to proceed.

Moving these customers from the west side to the east side will allow the city to abandon the Dye line south of the rail. We think this is a great move to avoid potentially serious issues down the road. This line is a dead end and is prone to breaks, which can be very costly and dangerous near the rail spur. Note that the city will still maintain the water customers, even though they are on the county's intercommunity line. This is a clear long-term win for the city.

The previous report follows.

GCDC, Mundy, and Gaines have bid out a new section of water main that is supposed to connect Elms/Maple to Hill, and on to Morrish. This will provide some additional redundancy for the system. However, it does not take care of our extreme west end, where we have a pronounced need for a second feed from either Clayton or Gaines. Note that this could also encourage some new development south of the city, which is common to experience when utilities are extended during strong economic periods.

As presented by the GCDC on April 12, 2022, the new county Master Plan includes a northern loop and southern loop option to provide redundancy and stability to the system. This is good news since Gaines and Clayton Township rely on the overstressed Miller line. There will not be any cost participation by the city, but the timeline is unclear. There are rumors that recovery act funds may be put forth to accelerate a loop.

# ✓ **COMMERCIAL METERS AND TRANSPONDERS** (No Change of Status)

All equipment is installed. We await software and training. The provider is working on scheduling this. See the report from August 11, 2022, for details on this program.

# ✓ **HERITAGE VACANT LOTS** (No Change of Status)

The last of the lots acquired prior to the special assessment have been sold. The city also has two more lots that were acquired through the tax reversion process. There is interest by the builder to proceed with acquisition and construction. In addition, the association manager reached out about permitted designs and builders for the subdivision. There could be renewed interest in some building. This would finally clear us of the subdivision and put the association in a better position to build membership and dues for their operations.

Though the city cannot retain funds in addition to expenses for these lots, we are still expected to sell them at market value. Listings in Heritage for vacant units are \$10,000-\$12,000, and none of them are moving. I propose a price of \$10,000 for each lot. If there is no objection, I will bring this back to the council for the first step of the sale process.

# ✓ **NEWSLETTER** (No Change of Status)

The newsletter is out. Let me know what you think.

# ✓ **CONSTRUCTION & DEVELOPMENT UPDATE** (See Individual Category)

This will be a standing section of the report that provides a consolidated list for a brief status on public and private construction/developmental projects in the city.

- 1. The **raceway owner affirmed the removal of two out-buildings imminently.** The last should come down this fall. He hopes, but will not commit, to removal of the main building in 2024.
- 2. The **demolition of Mary Crapo is done.** It appears that a plan is coming together to put a varsity baseball field here. The school is open to a partnership that may allow the DDA to pursue seasonal skating and/or public art.
- 3. The **school bond** will exceed \$50 million in district wide improvements that are close to completion. The improvements so far are very impressive, especially what is occurring at the middle and high schools. Most buildings have enhanced access and drop off lanes, as well as STEM labs.
- 4. **Street repair in 2023** is moving forward. Miller Road is underway now. Local street work will be out for bid in August. Repairs on School Street are done, and crack filling should be mid-summer.
- 5. The Brewer Condo Project first tri-plex is complete and for sale. We can affirm now that two of three units have sold! The third is apparently under contract for sale. The builder reached out to discuss the future phases. He said there is a lot of interest in the concept and location. However, the lack of a ground floor master bedroom is a non-starter for most buyers. He believes they can redesign the layout to accommodate this need, which might result in the future phases being multistory duplexes. I indicated that this may be the best path forward. A site plan revision would be necessary.
- 6. The next **Springbrook East** phase is under construction. **There appears to be a sale of this project occurring.** Nothing is official yet, but it is likely that there will be a new builder for future phases. In the meantime, there are three units available in the current phase. We are beginning the process of inspecting infrastructure for final improvements and the eventual transfer to the city.
- 7. The **southwest corner of Elms & Miller** is seeing some increased activity. This is likely due to the consolidation of two more properties at a recent auction, greatly expanding the available footprint. We have a court order to remedy blight at 7015 Miller. However, our attorney indicates they are proceeding independently to make this happen, and we are inclined to pursue this path, which was ultimately the solution for the adjacent homes with the same owner.
- 8. **Park projects** are substantially complete and include both basketball courts and Elm's tennis courts. We still need to paint markings on the Elms basketball courts. There is also an opportunity to mark the open area next to these for some use (pickleball, a 2D toddler village, etc.)
- 9. We have some interest in two **Meijer out lots**, as well as some potential **downtown renovations**. There are no applications or site plans, but I will keep the council informed if anything takes shape.
- 10. **New Businesses continue to come to town.** The former Swartz Creek Bakery has been sold to a local business that specializes in renovations.

11. (Update) Mundy Megasite/Costco. By all accounts, Costco will likely be placing a store on Hill Road, by US-23. There is no update regarding the megasite that the MEDC and regional chamber are marketing on Maple Avenue. We have had no official communication from either of these groups on this matter.

# ✓ **SAFE ROUTES TO SCHOOL** (No Change of Status)

This project is finishing ahead of schedule without issues. We are getting positive feedback from residents!

Note that we have engaged the resident at Fairchild and the path about the possibility of a fence depending on project impact. Staff and the mayor tentatively acknowledged that the city may be able to support this. I will be debriefing with the owner on this matter. This property is unique in its layout and proximity to the path as it relates to privacy, safety, and access.

See the report of March 13 for more details.

## ✓ **REDEVELOPMENT READY COMMUNITIES** (No Change of Status)

We have hosted a pair of meetings with different groups of downtown investors. If things go well, we may have some new plans for some transformational projects downtown. We hope for good things this year!

Our community continues to pursue a crowd funding match for a public place enhancement. The Public Places, Community Spaces opportunity is a big deal and can provide up to \$50,000 towards a downtown project (perhaps as much as \$75,000 if it includes universal design)!

A steering committee has been formed to tackle this project. Initial pricing for an engineered space was very high. We are now working with a community group that consists of a local architect, builder, and staff to see if we can source something more approachable.

The primary option for this is to invest in Holland Square to provide built-in structures for community seating, vending, entertainment, and related activities. There are a couple examples of this already that seem to work well in public spaces. Such a concept would activate Holland Square along Miller Road by providing social interactions, market activities, and some recreation. It would also include lighting, sound systems, and some shade/weather protection. Parking would be reduced but only minimally. Another Michigan community achieved their funding goal to realize their vision this month!

# ✓ **TAX REVERTED PROPERTY USE** (No Change of Status)

Concerning previously acquired property, the Wade Street property that the city acquired on the corner of Second Street is in the flood plain. J.W. Morgan was looking at it, but they have their hands full elsewhere, and this is a marginal site. I think we should consider looking to sell the property to a neighbor or having a home built ourselves. For the later option, I suspect we will not get our money back in the sale. However, we can take a tax exempt property with annual maintenance costs and put it on the tax rolls. Doing so would provide over \$1,000 a year to our respective local levies & assessments...forever. The site has been cleared of personal property as requested.

# ✓ **CDBG** (No Change of Status)

We signed the agreements, which means we can bid the projects during the winter. The previous report follows.

Applications were submitted for the 2022-2024 cycle which will go towards senior services and new downtown residential neighborhood sidewalks and/or decorative lighting.

As time continues to pass and prices climb substantially, I do not believe we can tackle the scope of work that we planned. The regional planning commission indicated that we have the ability to scale back the project prior to bidding. I recommend we do so to keep the project affordable. This does not mean that the other sidewalks cannot be placed with local funds. However, I recommend that if the city wishes to install such walks, that we do so at a separate time with local funds and not in tandem with the federal CDBG funds, which require prevailing wages.

## ✓ **GIS MAPS** (No Change of Status)

Our staff is doing very well at collecting sanitary sewer data. As noted above, this is crucial to future maintenance of the system in an efficient manner. Getting accurate field data combined with past contractor work will allow us to map past maintenance, existing issues, and future plans. The accompanying data will help us create sustainable, annualized costs and procedures to operate the system.

## ✓ **DISC GOLF** (No Change of Status)

Shattered Chains hosted volunteer workdays the weekend of the 19<sup>th</sup>! They got much work done! All 18 baskets and fairways are good to go. The tee pad installation is the next step. The group is very happy with how things are going.

# ✓ **PAVILION COMMITMENT/GRANTS** (No Change of Status)

The city applied for a recreation passport grant. Our grant writer has also submitted requests to Congressman Kildee's office and both US Senators for congressional directed spending. It appears that our request through Kildee's office WILL be in the federal budget. However, the amount may be a fraction of what was requested.

If so, we should be able to scale the project. If we can combine this with the RPG, we should still be able to get something good accomplished. We are still hopeful that Jentery Farmer's family will be able to contribute a sizable donation, perhaps as large as \$50,000.

# ✓ **SPEEDING AND TRAFFIC CONTROL** (No Change of Status)

Mary Crapo is likely to be used as a sport facility for the school. Initial indications are that the Ingalls Street side of the block MAY be altered to accommodate additional angle parking. This could drastically change the composition of the street. With that in mind, I think it is prudent to wait until this plan is put forth in the coming months so we can plan any markings, speed bumps, or other features in tandem with the school changes. The previous report follows.

Examples for speed humps are in the May 22, 2023, packet. There is not a 'silver bullet' solution for speeding. Instead, we can look to implement various strategies for traffic

calming and enforcement that each play a role in moving average traffic speeds to the slower end of the spectrum.

With that said, speed bumps can play a part on certain streets, such as Seymour at Oakview or on Ingalls. We can also continue to look at narrow lanes, on street parking, street trees, radar signs, traffic officers, and pavement stencils. The downside is that there is not currently a budget set up for this. It may be a worthy idea to test a pilot area, such as Seymour or Ingalls, where multiple strategies are enacted at the same time. The previous report follows.

Metro PD is providing two permanent speed monitoring and feedback signs. These resemble the portable signs, but they are bigger, self-powered, and more stationary. We have selected two city gateways that have some ongoing issues as prime candidates. One is Morrish, south of I-69, southbound. The other is likely to be Elms. We were leaning towards Miller, east of downtown, but the curve and right of way may not be the best.

The DPW is very impressed with these. I inquired to Metro about pricing and if the mobile trailer is available. If our experience is positive and prices reasonable, we may look to budget more as part of our community speed control program.

The idea is to create more awareness and accountability as folks enter the community and enter neighborhoods. We may be able to move or place such signs on Seymour, Ingalls, or other areas if we find they are useful. The previous report follows.

With the surface of so many streets improving, we are fielding more and more speed complaints. Since there is not long standing data on this, it is not clear if drivers are speeding more, people complain more, or standards are getting higher. In any event, we are now getting complaints for Hill Road (2022 resurfacing), as well as streets in Winchester Village. Regardless of the posted speed limits, a smooth road surface has the obvious impact of enabling higher speeds.

In the interest of calming traffic in all neighborhoods, it may be prudent to invest in some measures to create more awareness of speed, in addition to opportunities for great enforcement and physical design considerations. Some obvious markings that we can consider for Ingalls, Hill, and other streets are below. These are relatively inexpensive and can send a strong message, especially around schools. They are also easy to add, whereas design considerations such as narrower lanes can take years and cost much.

✓ CIVIC PARKING LOT SCOPE CHANGE (Update)

The parking lot should have the top coat before we meet. I will look to remove this from future reports.

# ✓ FIBER INSTALLATION (Update)

All but a couple of Frontier's fiber permits are approved. Work on installation has begun in the city and surrounding townships. We are working with them to avoid Miller Road conflicts during construction. The previous report follows.

Frontier is planning to expand the fiber communications network to the entire city. In the next 12-24 months, we should see the buildout of the primary fiber network, which will enable nearly every commercial and residential user to have access.

In short, the network will follow the existing copper lines. If the lines are buried, the fiber will be bored into the same 'trench'. If they are aerial, the fiber will be wrapped into place on the existing lines. (Copper lines are required to remain in place because they function on their own battery backup system and provide an essential service during power outages).

We do not expect any new utility conflict issues, nor do we expect any of our right of ways to experience unreasonable disturbances or pavement breaks. We also talked at length about the need to clean up the current overhead wires in cases where there is superfluous cable/wire, sagging lines, stub poles, etc. They indicate this is a big part of the investment.

# ✓ USDA AND ROAD BORROWING (No Change of Status)

We are prepared to borrow for both water and street work. We will bid all work soon and have a better understanding of what our financial needs will be. Until then, there will not be any direct sale (USDA) or competitive sale (street bonds). Note that the P&G rating is in and sits at AA-. This is a good rating, with BBB being considered investment grade. Bonds of AA rating are determined to excel as investment opportunities in all aspects. Both AAA and AA bonds are generally favored among investors and are deemed high grade bonds. However, AA bonds are perceived to carry additional risk, hence the marginally lower rating. The report is attached.

# ✓ **SOLAR SYSTEM MODEL** (No Change of Status)

We are continuing to seek funding for the solar system model that was proposed to run between Elms and Otterburn Parks. We officially have a partner with an observatory in Nelson, NZ (they requested metric units for their sign). This will require the purchase and shipping of a sign station to NZ, an expensive endeavor. However, since we are approved to use the MEDC RRC crowdfunding and external grants, we think this is worth it. Who knows, we may even create a Guiness Record for the world's biggest scale model.

Note that we are including wayfinding (directional) signs for this stretch that goes between Elms, Otterburn, and Elms School. This will serve to keep those unfamiliar with the area on track. This requires a new set of proposals from Signs by Crannie.

The previous report follows.

We contrived an interactive scale model of the solar system that could be displayed and described on the new trail. The idea is that the sun would be at the Elms trail head, with

Neptune at Otterburn Park. Folks can walk/bike the distance and learn about the solar system, seeing the solar bodies in scale imagery/models.

We have begun preliminary conversations with Nelson, New Zealand to participate. Their community is 8,630 miles away, which reflects the approximate distance to the next closest star.

The park board approved this concept for installation at their May meeting.

# ✓ PUBLIC SAFETY ASSESSMENT (Update)

2023 also completes ten full years of public safety assessment collections! The city will need to revisit the public safety assessment before the end of 2023. The process to do so is as follows.

There must be a City Council resolution approving the SAD and for the administration to gather an estimation of the costs needed for Public Safety and schedule a public hearing to consider the estimate, need for the special assessment, and hear objections. The public hearing notice must be sent by first-class mail to the property's record owner according to the last tax roll reviewed by the City Board of Review at least 10 days prior to the hearing. Publication of the notice must also occur 5 days before the scheduled public hearing in the local newspaper.

If the Council chooses to proceed, I recommend a resolution in October that sets the first public hearing for November. At that meeting, a resolution can designate the boundaries for the SAD and amount of the levy. The Council must hold a second public hearing with the same notice provisions as the first to confirm the SAD with any additions or corrections for the coming fiscal year.

I suspect that, like the first assessment, this process can occur in late fall. With the assessment and budgets firmly in place and functional for the past decade, it is likely that a renewal of the same boundaries (all city parcels) and same rate (4.9 mils) will suffice.

The previous report follows.

In 2013, the city went through a process to apply a 4.9 mil assessment to all real property in the city for the purpose of collecting revenues to support police and fire operations. This was done at a time when the city was down two full time police officers, provided about 1/5 the current amount of fire apparatus funding, and was still operating a substantial general fund deficit of about \$250,000/annually.

The underlaying cause of this pronounced deficiency was the catastrophic collapse of the community's taxable value as a result of the housing crisis and a specific and dramatic reduction in GM's taxable value. Massive reductions in raceway revenue sharing were also impactful.

Note that the presence of GM and the active raceway enabled the city to be one of the lowest, if not the lowest taxing city in the state that did not have a separate income tax at the time. The assessment enabled the city to return to pre-existing service levels for police and fire, a practice that continues to this day. This increase, along with the street tax that

passed a few years later, brought the city closer to the middle of the curve for tax effort (see the most recent budget book, which still has Swartz Creek as the third lowest taxing city in the region).

With that said, the assessment makes up about 30% of the city's general fund revenues and is essential to maintaining police and fire services. The city can certainly consider other options, or a combination of options, including service reductions, a voted tax, or a change in prioritization of appropriations (e.g., decrease park spending in favor of public safety). There are costs and benefits to each approach, but this discussion is going to present itself in the coming months.

If there are any general or specific questions that council members have, please let the rest of council and/or myself know.

# ✓ **OTTERBURN BIKE RACE** (No Change of Status)

The council approved an introductory off-road bike race at Otterburn Park. The event is planned for Sunday, September 17<sup>th</sup>, and they plan to have the park for exclusive use. Participant numbers would be about 75 (seeking approval for 100) and spread out over the day. The event does not require any site preparation, and their non-profit, Greater Flint Athletic Club, will provide for onsite volunteers and toilet facilities to meet attendee needs.

# ✓ BROWN ROAD LAND SALE OPTION (Update)

The city opted not to pursue the option for the sale of Brown Road. I have relayed this information to the Shiawassee Economic Development Partnership. The director completely understands. While he may wish to pursue a first-right-of-refusal agreement, at this point it seems enough to know that the city is open to marketing the property to a potential user.

In the meantime, they requested to perform wetland delineation of the entire area. I indicated that the city would allow delineation of wetlands on city-owned property if a professional service company was conducting the definition and added the city as an additionally insured party. We have insurance, and they are likely conducting fieldwork.

# ✓ SOLID WASTE MANAGEMENT PLAN (Update)

The council did not ratify the plan. I suspect the plan will undergo amendments and return to the council. I will remove this from future reports and provide updates.

# ✓ CROWN CASTLE METRO ACT PERMIT (Update)

We have a new Metro Act permit from Crown Castle. This is a routine application for telecom providers to operate utilities in the right of way. Our attorney is reviewing this, and I expect to have it on the agenda for the September 25, 2023 meeting. Due to the state statute, there is not a lot of wiggle room that the city has in reviewing or denying these.

# ✓ CROSS CONNECTION SHUT OFFS (No Change of Status)

There are a number of water connections identified in the city that have devices in the internal plumbing that require independent testing and verification in order to comply with the state requirements for cross connections. At this point, we have many commercial

and residential customers that are out of compliance after two separate notices. The inspector has sent out a service termination notice that gives the customer until December  $8^{th}$  to comply. If they do not, they can appear at the December 11, 2023 city council meeting to appeal the decision to terminate service. After that point and depending upon the outcome of any deliberation at the December 11 meeting, the city will be compelled to terminate water service.

This is not something we wish to be pursuing, but the expectations for cross connection are objective and reasonable.

# ✓ COMPENSATION COMMISSION (Update)

This group is due to meet this fall and make their recommendation on city council compensation. Though not required, we also ask them to review and recommend compensation for Zoning Board of Appeals and Board of Review.. I will report their findings. They usually recommend inflationary increases. They have also reworked stipends to account for technology needs in recent years.

As of writing, there is not a meeting scheduled for the Board of Elections, and it appears the election worker pay decision will be completed in early 2024 and not at this time.

# ✓ ALLEY DISCUSSION (Update)

I reported our findings regarding the alley by the Mary Crapo site to the school. I am not sure if they will take the next step to perform a title search or not. I will keep the council informed.

# ✓ **OTHER COMMUNICATIONS & HAPPENINGS** (See Individual Category)

#### ✓ MONTHLY REPORTS (Update)

The standard set of monthly reports are included for your enjoyment.

# ✓ **BOARDS & COMMISSIONS** (See Individual Category)

#### ✓ PLANNING COMMISSION (Update)

The PC met on August 1<sup>st</sup>. The September meeting was cancelled. The purpose of the meeting was to hold a public hearing and deliberate on the merits of a Planned Unit Development Overlay for the downtown. The planning commission deliberated on a boundary for the overlay, a massing concept plan for the district, and design guidelines. These changes are intended to attract and promote more dense redevelopment and use of properties in the downtown.

The commission recommended approval of the ordinance, and the city council affirmed the ordinance. There is not any pending business at the moment, but there are some conceptual inquiries for a Meijer out lot and some downtown property changes. I do expect a site plan or two this fall. The next regular meeting is scheduled for October 3, 2023.

#### ✓ DOWNTOWN DEVELOPMENT AUTHORITY (Update)

An existing member has moved from a downtown area residence to another area within the city. As such, the DDA MUST have another downtown property interest member appointed prior to their next meeting. I am hopeful that we will have a candidate by Monday and have included a resolution to this end. The previous report follows.

The DDA meeting for August 10<sup>th</sup> was cancelled due to a lack of quorum. On the agenda was a proposed budget increase for historical signs so that four could be purchased instead of three. There is also a request for funding to support Jeepers Creekers.

Their next meeting is scheduled for September 14th.

#### ✓ **ZONING BOARD OF APPEALS** (No Change of Status)

The ZBA held their annual meeting, including Advanced ZBA training, on March 14<sup>th</sup>. They selected incumbent, James Packer, for the chair. They replaced the late Robert Plumb with John Gilbert for the vice chair position. Mr. Ron Smith was selected for another term as secretary. There are no pending variances, appeals, or interpretations.

## ✓ PARKS AND RECREATION COMMISSION (No Change of Status)

There was not an August board meeting due to a lack of agenda items. I suspect the group will meet in September to debrief some events (Art in the Park, Slip and Slide, Bike Race, and Otterburn improvements). They may also be considering pavement markings or other additions to activate the open space between the basketball and tennis courts at Elms Park.

The next meeting is scheduled for September 19th.

#### ✓ **BOARD OF REVIEW** (No Change of Status)

The July BOR was Tuesday July 18 at 3:00. This session is set aside for Qualified Errors, Disabled Veterans Exemptions and Poverty Exemptions. There were no petitioners. We had a quorum of board members, with the alternate also attending.

# ✓ CLERK'S OFFICE/ELECTION UPDATE (Update)

Routine duties include record management, publications, FOIA request, human resources, payroll approval and everything related to elections.

Connie and I attended the Michigan Association of Municipal Clerks 2023 Member Education Day on August 30, 2023. We received some information on the 9-day early voting process, but not as much as we would have liked. We are waiting for legislation to pass/fail to know more. At this point, it is just a waiting game.

We attended the Genesee County Clerks meeting on September 7, 2023, and learned more information about early voting. We are not allowed to implement early voting for our election this November but have to wait until 2024. The State is only allowing one municipality from Genesee County to pilot and implement the 9-days of early voting this coming November. We also learned about new Hart election equipment.

As always, please remember to check your mailbox.

# ✓ DEPARTMENT OF COMMUNITY SERVICES UPDATE (Update)

- DPS continues to GPS water and sewer assets. This will be ongoing for most of the year as we have time available.
- Civic Center parking lot is under construction hopefully when you are reading this the paving is complete.
- SRTS trail project is nearing completion. We have completed a walkthrough and are developing a punch list for completion of the project.
- Miller Road is underway. Project is moving along nicely with the north side of the road curb removal and replacement nearly completed. Contractors will finish pouring the new curb hand patching in the asphalt near the curb and restore soft surface before switching over to the south side of the road. Project is on schedule to be completed by the expected completion date.

# ✓ TREASURER UPDATE (Update)

The auditors from Plante & Moran are continuing offsite fieldwork for the FY23 audit. Our staff is continuing to work with them on open items as they arise. I am working with Amy Nichols in preparation for her assuming the finance and treasury duties. Routine operations include, but are not limited to, processing payments for utility bills, tax bills, delinquent personal and qualified real taxes, building permits, daily/weekly/monthly journal entries, bank wires, review/approval of accounts payable invoices, issuance of building permits and rental inspection collections, processing payroll, accounting for grants and projects and other financial matters impacting the city.

# ✓ ECONOMIC DEVELOPMENT UPDATE (Update)

We have continued to work on the historical sign project by correcting narrative and pictures again. I'm hopeful we are on the final draft now! I will also be planning some form of public unveiling and will add details once we have a better idea of when the installation will be complete.

Family Movie Night season is done! Overall, we had great community participation throughout the summer. The Firefighter's association was integral to the movies as always and I am grateful that they were able to support it the way they did. I am going to work on securing volunteers earlier in the year so that I don't have to be on site for every movie night. We may also want to consider updating our equipment, as we did have a few issues with sound this year. It isn't apparent to us which part of the equipment needs to be replaced, although we're guessing it may be the main control panel.

We have at least one very interested prospective buyer of the old Methodist Church at 4484 Morrish Road. More to come as that process moves along. The MEDC has provided us with a draft marketing brochure geared towards redeveloping the property as a potential restaurant or brewery.

Now that summer activities have wound down, I'm starting to think of Fall and Winter activities. I've reached out to the business community and the fire department about ideas they may have. I'm hopeful we can add onto the Christmas Parade with some business centered events. Please let me know if you have any suggestions or if you know of an organization that would be a good partner.

I continuously connect and meet with business owners throughout Swartz Creek. I am hoping to have another business owner roundtable soon.

As of now, it sounds like the entryway signs at Elms Park, and Seymour and Miller Roads may be adopted by willing individuals! More to come on that as it progresses.

# **NEW BUSINESS / PROJECTED ISSUES & PROJECTS**

# ✓ GENESEE CO. PARKS COMMISSION PLAN OPT-IN REQUEST (Business Item)

We have a request from the Genesee County Parks and Recreation Commission to optin to the action program section of their amended Park, Recreation, and Open Space Plan. Their letter is included in the packet. The city has opted-in previously, with the thought that regional cooperation is a best practice and that our local plan could then be actionable by the county and vice-versa when it comes to state and federal grants, especially by the DNR. I recommend we cooperate.

In addition, they are seeking public input. I have distributed their online survey widely. I encourage folks to take this survey. One of the areas we hope people comment on is the need for the county to invest in active recreational amenities in the Swartz Creek area. This follows much discussion by our park board regarding the need to provide regional recreation in west-central Genesee County (Clayton, Gaines, Swartz Creek, Flint Township, and Mundy Township). Until Mundy opened Miracle Commons, Swartz Creek was the only provider of municipal active recreation between Flushing and Linden, with county parks being adjacent to both of those communities.

As we observe, Elms Park is busting at the seams. Our city can only do so much, with our obligation to the local taxpayers. We cannot readily provide resources to such a large population base in a sustainable manner.

#### ✓ MILLER SETTLEMENT CITIZEN OF THE YEAR (Business Item)

The Mayor is going to honor Rick Henry in front of friends and family this Monday! Spread the word!

# ✓ FIRE DEPARTMENT BUDGET (Business Item)

I am including materials from the August 21, 2023, Fire Board meeting, mostly pertaining to the draft budget and equipment purchasing schedule. This was updated by the chief since that meeting, with his narrative and updates included. Chief Plumb will be joining us on the 11<sup>th</sup> to go over this.

Please take a look at the 2024 Budget/Apparatus Replacement Schedule section of the Fire Chief's Report. As you can see from this and the draft budget instrument, there are some hefty increases proposed for both. The 2024 fiscal year (calendar year) budget for the FD is expected to be up 14.6%. This could be mitigated by equipment sales that generate additional revenue and/or grants. Clearly, this is a massive jump and not sustainable. However, the crux of the issue is not so much a matter of operating as it is equipment purchases, largely the replacement of jaws of life.

With that said, I think the conversation about fire funding for this year and the coming years' apparatus distils down to equipment expenses. The city is still paying off the pumper truck that was ordered previously. However, new needs are being put forth in the

form of smaller needs like the jaws of life and the larger needs, such as the ladder apparatus (2028 delivery at estimated \$1,500,000).

These needs are not able to be supported by our current budget and long-term plans for apparatus support through the Fire Equipment Fund. Scrutiny of the needs and options with Fire Department staff is required to determine a course of action. Ultimately, a long-term plan for all equipment needs is required to be planned, adopted, and funded.

This MAY result in the ability to acquire the stated apparatus if the timeline for that specific unit and other needs permits enough payments into the fund prior to delivery/final payment date. It is also crucial that other needs do not present themselves during the savings or payoff period as these would be without a funding source of their own, be it within the operating budget or equipment fund.

At any rate, I suspect our delegates to the Fire Board will have some information to add to this conversation. I also expect Chief Plumb and/or his staff to have more details on the service need and how a ladder truck fits in to that. I have been liaising with Mr. Spillane with Clayton Township, but their disposition to the proposed budget and future apparatus purchase is not yet known to us. Though I suspect they are facing the same revenue limitations that we are.

Giving the presented needs for the 2024 operating budget, equipment costs for the coming fiscal year, and the ability to secure other funds, I think council can approve this budget. I suspect that Clayton Township will.

Concerning larger apparatus, I hope there is discussion on the matter at our meeting. However, I do not think we are in a position to approve the next purchase or the schedule at this point.

# ✓ ROAD STRIPING COOPERATIVE BID ACCEPTANCE (Business Item)

Due to recent road work and ongoing maintenance needs, the city needs to engage in line painting to delineate travel lanes and other markings on public streets.

We have a good standing practice of piggy-backing with the Genesee County Road Commission bid for this work. The pricing established by the county for linear paint is attached in the form of a bidding tabulation from August 3, 2023. The pricing for symbols is included and established by the February 28, 2023 tabulation for Livingston County.

The contractor indicated they would honor this unit cost for the city when they are in the area. As it is with road salt, there is no way the city could get this kind of scaled pricing on our own. I recommend we accept the county bid prices by M&M Pavement Marking in lieu of a separate bidding process. This contractor has done good work for the city in the past.

Based upon last year's invoice and number of units applied, we can expect about \$16,000 worth of work. I am including the county pricing. I recommend we proceed.

# Council Questions, Inquiries, Requests, Comments, and Notes

*City Boundary:* There is a discrepancy in the municipal boundary between what is in our charter and what was filed with the state in 1958. This is reflected as a difference between the boundary we use for all intents and purposes with that of the census map that is utilized by the state. We are making corrections now. This will result in more accurate (increased) population counts, road miles, and GIS information. As of writing, I am not sure this is going to be worked out.

*DPW Equipment:* The dump will be listed upon delivery of the replacement. We cut the check for the new chassis this week. We are looking to list one of the surplus backhoes as well.

*Mobile Phone Service:* Verizon service has been declining for years in the city. It is so bad that our DPW has requested we proceed with a new carrier, even before our current agreement expires at the beginning of 2024. We have tested T-Mobile for a month and find that it meets or exceeds our needs. I will look to switch as soon as possible and attempt to recover the remaining value of our contract with Verizon.

The Genesee County Parks and Recreation Commission is in the process of updating its Park, Recreation, Open Spaces and Greenway Plan.

Public input will be gathered through an open survey available on our website and social media pages to give all Genesee County residents an opportunity to share their thoughts about the County Parks' facilities, programs, and priorities.

Four years ago, we extended an invitation to each local unit of government to opt-in to the action program section of the plan. Opting into the Genesee County Park, Recreation, Open Space and Greenway Plan will not replace your local parks master plan, and it won't give the County Parks any authority over your parks.

Opting in is a no-cost way to demonstrate the type of cooperative planning efforts that the State is encouraging in several initiatives that may, ultimately, provide access to additional resources for individual communities and for the Genesee County region as a whole.

Several communities opted into the Genesee County Park, Recreation, Open Space and Greenway Plan during our last plan update which led to cooperative projects such as new trail sections through our local communities.

It's easy for your community to opt-in. Just a <u>resolution from your</u> <u>governing board</u> (see sample enclosed) authorizing the Genesee County Parks and Recreation Commission to include your action plan in our Park, Recreation, Open Space and Greenway Plan, along with <u>a copy of</u> <u>your current plan's action program</u> must be received in our office **by November 1, 2023** to be included in the current update.

If you have any questions, please give me a call at 810.249.3812 or send me an email at <u>bjune@gcparks.org</u>.

Sincerely,

Barry M. June Director

Re: 2024 Swartz Creek Area Fire Department Budget Recommendation

I am sure many of you have had the opportunity to review the recommended 2024 budget for the Swartz Creek Area Fire Department. The original draft had an error on the comparison sheet, showing the budget for 2020, 2021, 2022 and 2023. The error was with how the data was pulled into the cover sheet. It seems it pulled the 2022 budget in the place of the 2023 budget. This made it appear to all, including myself, that there was a 22.5% increase to the budget over 2023.

Though the original draft of the 2024 budget did not change, the reflected increase over 2023 was incorrect. With that being said, the recommended increase over 2023 is 14.6%.

Below you will find a brief explanation for the increase. As you will see, we have been putting off replacing some older equipment (Jaws of Life and Positive Pressure Fans) for some time now and have gotten to the point where we need to begin replacing this vital equipment.

With the increase comes some possible solutions. For the firefighter turnout gear, helmets, boots, gloves, and other safety equipment, I have applied for a Fire equipment grant through the MI Department of Treasury Fire Equipment Grant program. This grant was for \$10,000 and is expected to be announced soon with awards at the end of 2023 or 1<sup>st</sup> of 2024.

I will also be applying for a grant through "Firehouse Subs". As some of you may be aware, Firehouse Subs takes a portion of their sales and provides grants to fire departments in the community. The Firehouse Sub business in Genesee County is in Grand Blanc, but that does not prevent nearby departments from applying, it is encouraged. I will be applying in October and again in February. With the purchase of a new set of Jaws I will recommend selling two of the three sets we currently have, this will not produce a large return, but should help offset some of the costs.

Finally, with the arrival of the new truck in the spring, we will be selling a fire truck. I plan to list it at a minimum of \$25,000 but probably more. With the results of the previous truck sales, this truck could shock us again with its sale. The tanker we sold was 7 years older and went for \$33,000.

I plan to attend both the City Council and Township board meetings in September to discuss this further along with the recommended truck purchases.

1949 American LaFranc Aerial. It was purchased, used, from the Flint Fire Department. In approximately 1985 it was sold to the Corunna-Caldonia Fire Department in Shiawassee County.

This was a 1963 Sutphen 65' aerial
